

The FCC must refuse to allow these banks to overturn our legislation.
The Do Not Call list allows me time with my family without the interruptions of these intrusive, rude, harrassing telemarketers. The invention of Caller ID, Privacy Manager, etc. should show that the American public is sick and tired of being solicited. If I want their services I will call them. Otherwise, I want to be left alone. Isn't the precious time that I get to spend with my children far more important than their latest pitch? Tell them NO and those of us who should matter, citizens, YES and leave the Indiana Do Not Call List ALONE!!!!
Let us have a little privacy, peace and quiet!
